

Preston Allen

BA in Human Services, May 2015

Home town: Griffin, GA

High School: Griffin High School

## Honors:

Phi Alpha Theta

Phi Theta Kappa

Honors Program

Student Honors Council Vice President

---

## Brief Bio:

Attending Gordon State College has been a wonderful experience for me. After earning my Associate's degree in Sociology, I was in the process of transferring to get a Bachelor's in Human Services when I first learned that Gordon was adding the program the list of degrees they offered. With this option available, I decided to stay, and have not regretted it. The professors are passionate about their subjects and eager to help out their students. They have encouraged me to grow, both as a student and a human being. With the help and guidance of the faculty and my advisors, I have been able to contribute to the campus, both through clubs such as the Human Services Club and Rotaract, as well as peer tutoring and volunteer work. Through all of this, I have learned a considerable amount about myself, and have made good friends along the way.

I am currently a senior at Gordon and in the process of applying to graduate school to get a Master's in Sociology. With the skills and knowledge I have acquired while attending Gordon, I am confident in my abilities as I move forward in life.
