

**Charlseay Dodgen**

**Biology Major**

Home Town: Thomaston, GA

High School: Stratford Academy

## **Brief Bio:**

In May of 2013 I graduated from Stratford Academy in Macon, Ga. After my high school career ended, I began attending Gordon in the following fall. I started out at Gordon with an undeclared major, but quickly decided on being a Biology Major. My initial plan was to transfer after getting an Associate's in Biological Science at Gordon, but I really love it here. That being said, my ultimate decision (which is partially due to being in the Honors Program) is to stay at Gordon for my Bachelor's Degree as well.

After I graduate with my Bachelor's Degree, I plan on attending medical school. Recently, I became certified as a Nurse Tech in order to get closer to my ultimate goal of becoming a doctor. I'm currently set to begin work at Upson Regional Medical Center in Thomaston, Ga in order to gain some experience in the healthcare field prior to applying to medical school.
