

Nathan Jenkins
Computer Science

I grew up in Forsyth, Ga, and have lived there all my life. I have been in the Monroe County school district for my entire K-12 career, graduating from Mary Persons High School in 2014. I spend most of my free time either reading, watching movies, playing games on my PC, practicing guitar, or exercising. I am the middle child with two sisters, and I have 4 dogs and a cat.

I'm not sure what I will do in the future. I am currently attending Gordon State College with a major in Computer Science, and I plan to attend a four-year college after I get my Associate's at Gordon. Recently, however, I have begun to think about some other potential careers, possible one where I am able to work with my hands, such as a skilled trade. This is all very fluid at this point, however.
