

# Charlie McDermitt

May 2016 · A.S. in Computer Science

Hi! My name is Charlie McDermitt. I've been a student in the Honors Program for the last two years, and I've enjoyed all of it. I'm originally from Griffin, Georgia and chose to attend Gordon because it was close to home. I joined the Honors Program to improve my academic opportunities and found a wonderful bunch of people. After a semester, I joined the Student Honors Council, then became the Communications Officer and became more active in the program, working on several projects, including designing the website you're likely viewing this from. In the future, I'll pursue my B.A. in Computer Science at a larger local university.
