

Zachary Trotter

BS in Mathematics

Hometown: Statesboro

High School: Jackson High School

Honors: Honors Program Member

### Brief Biography

I plan to begin my collegiate career in the fall of 2015. I look forward to meeting the professors of whom I have heard are qualified, and dedicated to their work. Also, I plan to make lifelong friends, and colleagues among the professors as well as the students.

I'll study Mathematics, receive my bachelor's degree at Gordon, and go on to teach. With my degree, I would very likely start in a high school setting, continue my education, and teach at the collegiate level.

Lastly, I plan to teach while I pastor and/or travel to minister the Gospel. I have been in the ministry for 6 years, and I'm currently on track to be ordained with the Assemblies of God. I hope to reach out to those on campus too because I believe Jesus Christ is still the answer for man's need.
