Honors: Student Honors Council, Spring 2015-

Brief Biography

I began my Gordon experience in May of 2014. I am majoring in Early Childhood Education. I plan to complete my associate's degree by May of 2016. I hope to begin my bachelor's degree in the fall of 2016. I have had the privilege of meeting many wonderful members of the faculty and staff at Gordon State College. They have all influenced my college experience. I want to use my degree I receive at Gordon State College to benefit children with special needs, and those from high-risk environments.

I grew up in Montezuma, Georgia. In 2012, my family moved to Upson County to aid in a church planting effort. I am third from the youngest in a family of seven children. Early in my life, I became very interested in working with orphans and children involved in difficult situations. In 2009, I went to El Salvador to volunteer at a children's home. I have also been involved in church clubs for community children.

My dream is to one day work in an urban elementary school. My interest is in urban/inner-city missions. I know the world has so many needy individuals, but I believe we can impact the future if we invest time and energy in the next generation. I want to be willing and available to impact the future, one young life at a time. I believe God has a reason for placing me here, and I want to fulfill His purpose for my life. Even if it requires me to sacrifice some of my own comforts or privileges.
